

BIRLA INSTITUTE OF TECHNOLOGY & SCIENCE, Hyderabad
INSTRUCTION DIVISION
FIRST SEMESTER 2013-2014
COURSE HANDOUT(PART-I)

Date :01/08/2013

In addition to Part-I (General Handout for all courses appended to the Timetable) this portion gives further specific details regarding the course.

Course No. : BITS C464 / BITS F464
Course Title : Machine Learning
Instructor In Charge : Dr. N.L.BHANU MURTHY
Team of Instructors : Dr. N.L.BHANU MURTHY

1. COURSE DESCRIPTION :

Machine Learning addresses the problem of identifying patterns in data. The major goal of machine learning is allow to computers to learn (potentially complex) patterns from data, and then make decisions based on these patterns. This class will provide an introduction to the fundamentals of this discipline. The main objective of this course is to get familiarity with a set of well-known supervised, unsupervised and semi-supervised learning algorithms. This course helps to achieve the ability to design & implement some basic machine learning algorithms and understanding of how machine learning algorithms are evaluated.

2. SCOPE & OBJECTIVE :

The course covers design, implementation and applications of many supervised and unsupervised machine learning algorithms. The classification algorithms, namely, Logistic Regression, Support Vector Machines, Artificial Neural Networks, Decision Trees, Baysian methodologies will be studied exhaustively. This course also encompasses regression techniques like liner regression of one variable and different variables. The unsupervised techniques like k-means algorithm will also be covered in this course.

3. TEXT BOOK :

T1. Christopher Bishop, Pattern Recognition and Machine Learning, Springer International Edition

4. REFERENCE BOOK :

R1. Tom M. Mitchell. Machine Learning, The McGraw-Hill Companies, Inc..

5. COURSE PLAN :

Subject	Ref.	Lecture n.
Course Introduction & Motivation.	Lecture Notes	1 - 2
Concept Learning & General-to-Specific Ordering	R1 – Ch. 2	3 - 5
Decision Tree Learning	R1 – Ch. 3	6 – 8
Evaluating Hypotheses	R1 – Ch. 5	9 - 11
Bayesian Learning	R1 – Ch. 6	11 - 14
Regression – Linear Regression with single and multiple variables	T1 – Ch. 3	15 - 21
Logistic Regression	T1 – Ch. 4	22 - 24
Support Vector Machines	T1 – Ch. 7	25 - 28
Artificial Neural Networks	R1 – Ch. 4	29 – 33
PCA & Miscellaneous	T1 – Ch. 12	34 - 37
Clustering Algorithms	T1 – Ch. 8	38 - 40

6. EVALUATION SCHEME :

Component	Duration	Weightage(%)	Date & Time	Remarks
Test I	60 mts	20	26/9, 12.00--1.00 PM	CB
Test II	60 mts	20	7/11, 12.00--1.00 PM	CB
Assignments	-	20		OB
Comprehensive Examination	3 hr	40	11/12 , 9.00 – 12.00 PM	CB

7. CHAMBER CONSULTATION HOUR: Thursday 1600 Hrs – 1700Hrs @B219

8. Make-up: Make-up will be granted only to genuine cases with prior permission only.

9. NOTICES: All notices about the course will be put on CSIS Notice Board.

**Instructor –in-charge
